

Improving Patient Care: The Implementation of Change in Health Care, 2nd Edition

Edited by

Richard Grol, Scientific Institute for Quality of Healthcare, The Netherlands
Michel Wensing, Scientific Institute for Quality of Healthcare, The Netherlands
Martin Eccles, University of Newcastle upon Tyne, UK
David Davis, Association of American Medical Colleges, Washington DC, USA

Improving Patient Care, 2nd edition:

- Provides a structure for professionals and change agents to implement better practices in health care
- Enables health professionals, managers, policy makers and researchers to assess new techniques and select and implement change in their organizations
- Includes recent evidence and further coverage on patient safety and patient centred strategies for change.

Written by an international expert author team, *Improving Patient Care* is an established standard text for postgraduate students of health policy, health services and health management. The strong author team are global professors involved in managing research and development in the field of quality improvement, evidence-based practice and guidelines, quality assessment and indicators to improve patient outcomes through receiving appropriate healthcare.

Paperback • 376 pages

CONTENTS

Part I Principles of implementation of change
Part II Guidelines and innovations
Part III Assessment of performance

Part IV Problem analysis
Part V Strategies for change
Part VI Organisation and evaluation

"Grol and colleagues have created a wonderful invitation to thinking about the improvement of health care beyond the acronyms and initials... Read it and get going."

Professor Paul Batalden, Dartmouth University, USA

"Anyone who has worked in the health care field knows just how difficult it is to close the gap between what they know to be best practice and what they manage to do on a daily basis... This book is essential reading for everyone preparing for, working in or researching this fundamentally important field."

Professor Martin Marshall, University College London, UK

"This book is a key resource for anyone interested in implementing change in health care by international thought leaders in the field. It argues for a systematic evidence-based approach to enhance the likelihood of successful implementation informed by over 30 years of research and interdisciplinary theoretical insights. It is comprehensive, clearly written and practical and should be open on the desk of anyone interested in evidence based health care."

Jeremy Grimshaw, Ottawa Health Research Institute, Ottawa, Canada
